Day 3
Patreksfjörður &
Dynjandi -
Westfjords

Over the next three days, we explore the Westfjords region featuring outstanding landscapes with jaw-dropping views of dramatic fjords carved by ancient glaciers, sheer table mountains that plunge into the sea and pristine North Atlantic vegetation. At Patreksfjörður, a shore excursion by coach takes us to Latrabjarg cliffs. As Europe's largest bird cliff, Latrabjarg is home to millions of seabirds, such as puffin, razorbill, fulmar and guillemot. Enjoy the impressive variety of natural wonders and unspoiled nature. Latrabjarg also happens to be the westernmost point in Europe, east coast of the North American continent on the other side of the Atlantic. Immerse yourself in the tranquility of the afternoon as we cruise northward, taking in breathtaking landscapes and keeping a watchful eye for whales. Later, we'll embark on a Zodiac landing to witness the awe-inspiring power of Dynjandi waterfall.

Day 4 Thingeyri
- Westfjords

Thingeyri, a quaint village nestled on a slender strip of land, graces the shores of one of Iceland's most picturesque fjords, Dýrafjörður. Much like many other coastal settlements in Iceland, the village's culture and industry have been intricately woven with the influence of the sea over centuries. The surrounding landscape is adorned with towering mountains, lending a distinctive charm to the scenic expanse that envelops Thingeyri. This idyllic region is often hailed as the "Alps of the Westfjords," especially the highland area nestled between the majestic fjords of Dýrafjörður and Arnarfjörður. The beauty of Thingeyri lies not only in its coastal simplicity but also in the dramatic backdrop of high mountains that paints a captivating portrait of this Icelandic village. Personalise your expedition with our included 'Your Choice' experiences that best suits your interests and level of fitness. Option 1 - That Viking Thing Experience (Duration: 2 hours + free time / Level of difficulty: Easy) Today you will step back in time and learn about the Viking ways and how the hardy Norse people lived off the land. Walk through a recreated Viking area, learning about what is fact and what is fiction in the many stories you've heard about the famous Vikings. A short hike brings you to the old ruins of the Viking meeting place called a Thing - the closest translation in English is 'parliament.' Step inside the interactive Viking Museum for a chance to dress up in authentic hand-sewn Viking clothing, take photographs, drink Icelandic Viking beer, bake your own Viking bread, and explore the museum - all part of learning more about Viking ways. Option 2 - Sandafell Mountain Hike (Duration: 3 hours / Level of difficulty: Moderate-Difficult, dependent on fitness level) For avid explorers, Iceland is littered with hidden gems, and possibly the best-kept secret of all is the Westfjords. Lying in the most north-westerly area of the island, this sprawling area of natural beauty is truly a hiker's paradise. Rocky peaks, deep crevices, and charming Icelandic towns all add to the appeal of the Westfjords, not to mention the various hiking trails snaking across the unusual countryside. Today we will hike Sandafell, offering gorgeous views over the town, surrounding mountains and the water below.

Day 5 Vigur
Island &
Isafjörður

On Vigur Island, birdwatchers can try and tick a few species on their list, while others can enjoy walks and hikes of varying levels of difficulty, soaking in the stunning surrounds. The island's unique ecosystem is a haven for birdlife, making it a paradise for nature enthusiasts. Stroll along the coastline, keeping an eye out for puffins and other seabirds, or venture deeper into the island to discover hidden gems. With its rolling hills, picturesque landscapes, and fresh sea air, Vigur offers an unforgettable experience. Later, we visit Isafjörður, surrounded by sheer mountains and steeped in history, evident in its preserved wooden architecture. Delight in its lively cultural scene and abundant outdoor activities.

Day 6
Snaefellsnes
Peninsula

Grundafjörður is the starting point of our adventures on the Snaefellsnes Peninsula, gateway to Snaefellsjökull National Park. Snaefellsnes Peninsula is an area of diverse landscapes that is characterised by lava fields and glistening fjords and home to a vast array of birdlife. The area is crowned by the magnificent, ice-capped Snaefellsjökull volcano, a 700,000-year-old dormant subglacial volcano, visible from Reykjavik on a clear day and immortalised in Jules Verne's Journey to the Centre of the Earth. You can choose from three shore excursion options that best suits your interests and level of fitness. Option 1 - Highlights of Snaefellsnes (Duration: 8 hours including lunch / Level of difficulty: Easy-Moderate, dependent on fitness). Our first stop will be the iconic Mount Kirkjufell, a favourite among photographers and known to many as a filming location for the TV show "Game of Thrones". Not far from this majestic mountain is a waterfall that completes the picturesque scene. Next, you'll visit Snaefellsjökull National Park, encompassing a large area of Snaefellsnes Peninsula's western tip. For the more active, explore some incredible hiking trails, or simply enjoy your drive through the park and take in the beauty that surrounds you. Continue to the dramatic black pebble beach of Djúpalónssandur, where you can marvel at the black sands and colossal rock formations, volcanic landscapes, and remains of a 1948 shipwreck. Following lunch, re-join the coach to travel to Búðir, a picturesque hamlet surrounded by the stunning landscapes of the Snaefellsnes Peninsula. Stop to admire Búðakirkja, the 19th-century church and explore the area before embarking the ship in Arnarstapi. Option 2 - Natural Wonders of Snaefellsnes (Duration: 8 hours including lunch / Level of difficulty: Moderate). Upon disembarkation, we will stop at the iconic Mount Kirkjufell, a favourite among photographers and known to many as a filming location for the TV show "Game of Thrones". Not far from this majestic mountain is a waterfall that completes the picturesque scene. Next, you'll step into the 8,000-year-old Vatnshellir Cave, replete with stunning geology, fascinating rock formations, and colourful volcanic rock. We will meet at our base near the cave, where your friendly guide will provide you with all the equipment that you need, including a helmet and headlamp (we strongly recommend that you wear comfortable and sturdy footwear, as the volcanic rock can be quite difficult to traverse). Then your friendly guide will give you a brief safety talk before we descend the spiral staircase into this subterranean wonderland. The tour meanders through the path of the lava flow around 200 meters into a large cave that lies around 35 meters beneath the surface of the earth, where we will be greeted by some rainbow-coloured volcanic rocks and incredible petrified lava formations. The cave is a fairly easy walk, although it will involve a degree of climbing. Following lunch, re-join the coach and travel to Arnarstapi and hike the coastal trail that connects the two villages of Arnarstapi and Hellnar. Now a National Reserve, this easy level hike encompasses geology, wildlife, amazing photo opportunities, folklore and most of all adventure. This old trail takes us along the wild shoreline with a view of the ocean and extraordinary columnar basalt and lava cliff formations on one side and stunning mountains and Snaefellsjökull Glacier on the other. The cliffs are alive with a wide range of bird species such as the Arctic Tern, the kittiwakes, gulls and fulmars. Option 3 - Snaefellsnes Adventure (Duration: 8 hours including lunch / Level of difficulty: Moderate-Difficult). The Land of Fire and Ice is well-known for its incredible landscapes and contrasting terrains that include several natural and geological wonders rarely found anywhere else on Earth. The unique geological history of Snaefellsnes will draw you in where you can explore sites revealing Iceland's unique geological history up close. Your first stop is at Eldborg crater, located on a short volcanic rift, just 200 metres in diameter, and 50 metres deep. It is the largest crater on this rift and was created in an eruption which occurred somewhere between 5000 and 6000 years ago. Unlike many of Iceland's volcanoes, it has a very classic shape, with smooth sloping sides and a very definite crater. A marked hiking path leads through a shrub-covered lava field to the top of the crater offering incredible views of Snaefellsnes National Park. We continue to the symmetrical, hexagonal-shaped basalt columns at Gerðuberg Cliffs. Stand in awe at these impressive cliffs, a natural marvel that spans 500 metres. To enjoy the best view, take a walk by the structures. Climbing up the cliff is possible but to really soak in the views of this geological structure, it is best to enjoy a walk alongside the cliffs. Following an early lunch, re-join the coach and head for the Pufubjarg bird cliff, home of nesting puffins and fulmars. From here, hike along the rugged coastline to witness the exceptionally beautiful Londrangar basalt cliffs, a geologic wonder that looks like a huge rock castle. There are many local birds here, and they are a noisy bunch. Puffins, but especially fulmars, nest in the many cavities in the two pillars. From here you hike across a pretty lava field covered in moss to Malarrif, where you can see the lighthouse and explore the beach.
