Welcome on board Scenic Eclipse II, your ultra-luxury home for the days ahead. Settle into your spacious suite, with butler service on hand and thoughtful touches that range from a curated pillow menu to the mini bar, restocked daily to your preferences. Take time to explore the decks and find your favourite indoor and outdoor spaces, before toasting the start of your voyage with a glass of champagne in the Scenic Lounge Bar or a cocktail at the open-air Sky Bar on Deck 10.

Please book your flight to arrive into Broome prior to 02:00 PM.

Lacepede Islands, Australia

Tag 2

After a relaxing morning on board Scenic Eclipse II, arrive in the afternoon at the remote Lacepede Islands, located approximately 120 kilometres north of Broome. Designated an A-class reserve, this protected archipelago is renowned for its prolific seabird colonies and rich marine life. It is also Western Australia's most significant breeding ground for green turtles and, in season, a notable location to observe migrating humpback whales.

As the day continues, perhaps enjoy a coffee or cocktail in one of the yacht's bars and lounges, or settle into the Observation Lounge library with a book. Later, join the Discovery Team in the state-of-the-art theatre for an introductory lecture, offering insight into the remarkable region you are exploring.

Talbot Bay & Horizontal Falls, Australia

Tag 3

Sir David Attenborough named the Horizontal Falls± at Talbot Bay "one of the greatest natural wonders of the world." Created by a unique combination of geology and massive tidal surges squeezed through two narrow cliff passages, this is the only place in the world where horizontal falls exist. After a full day exploring this fascinating region, relax in the Vitality pool and gaze out across the breathtaking panoramic views.

Scenic Discovery:
Explore some of the planet's most unique waterways by Zodiac. Conditions permitting, journey through the narrow Talbot Creek, locally known as Cyclone Creek, to reveal gorgeous sandstone folding where you may spot rock wallabies on outcrops, or the 18 different species of birdlife including Australian Ibis, Brahminy Kite and Brown Honeyeater.

±Please note, guests will have the opportunity to view this natural phenomena however will not cruise through the Horizontal Falls.

Montgomery Reef & Freshwater Cove, Australia

Tag 4

Wake to a completely new vista at Montgomery Reef, the world's largest inshore reef that boasts some of the Earth's biggest tidal changes, reaching up to 10 metres (33 feet). As the tides rise or fall, both soft and hard coral are exposed, falling below sea level to create a remarkable spectacle.

Go ashore at Freshwater Cove located on Worrora country and meet with traditional Dambimangari guides of the Arraluli clan and be immersed into the importance of their culture. Hear about the Traditional Owners and the story of how the Wijingarra, or native spotted Quoll, came into being and how the area's freshwater was created.

Scenic Discovery:
Subject to conditions and approvals, you may have the opportunity to explore Montgomery Reef by Zodiac, with your Discovery Team. If the timing is right, discover thousands of small waterfalls cascading down the reef and see incredible marine life including sea turtles, octopus, sharks, rays, dolphins and more.

Careening Bay, Port Nelson, Australia

Tag 5

Careening Bay, within Port Nelson, is closely linked to early coastal exploration. In 1820, British surveyor Phillip Parker King careened his vessel HMC Mermaid here for repairs, commemorating the event by having its name carved into the trunk of a vast boab tree that still bears the inscription today.

Scenic Discovery:
Guided by the Discovery Team, time ashore may include a visit to the historic “Mermaid Tree” and the surrounding shoreline, with opportunities to appreciate the bay’s quiet beaches, distinctive boabs and coastal vegetation. Later, cruising by small craft around nearby islands and inlets can reveal mangroves, sheltered coves and marine life such as sea turtles. As Port Nelson’s sandstone and basalt cliffs come into view, the interplay of light on rock and water provides a striking natural backdrop for photography and quiet contemplation.

Hunter River & Mitchell Falls, Australia

Tag 6

Today, Scenic Eclipse II will cruise through York Sound to the mouth of the Hunter River. A true wilderness with jaw-dropping panoramas of wild escarpments, monsoon rainforests and the four-tiered Mitchell Falls, carved out over millennia.

Subject to conditions and scheduling, for a fresh perspective embark on a helicopter^ flight for magnificent aerial views of the Hunter River or Mitchell Falls. Also known as Punamii-uunpuu, it’s an iconic Kimberley landmark and a place of cultural and spiritual significance for the Wunambal people.

Later, treat yourself to an indulgent time in the Senses Spa. Be pampered with a range of signature ESPA treatments# and relaxation lounges. Then watch the world slip by as you relax in a cabana on Deck 10, before taking a dip in the Vitality pool. Alternatively, ask your butler to deliver afternoon tea to your suite to enjoy on your private verandah while marvelling at the endless ocean.

Swift Bay, Australia

Tag 7

Swift Bay offers a rare concentration of Kimberley rock art styles in one area, with Gwion Gwion and Wandjina galleries located within reach of your Scenic Discovery Yacht by a short Zodiac transfer. Towering sandstone escarpments and sheltered rock overhangs frame a landscape where culture and country are closely intertwined.

Scenic Discovery:
Accompanied by the Discovery Team, visit ancient Gwion Gwion galleries (formerly known as ‘Bradshaw’ paintings), where fine, elongated human figures appear in flowing headdresses and dynamic postures. Nearby, Wandjina rock art depicts powerful creation beings and rain-bringers that remain central to the living culture of the region’s Indigenous peoples.

Subject to conditions and scheduling, there may also be an option to join a scenic helicopter^ flight over the Mitchell Plateau to view the tiered cascades of Mitchell Falls from the air.

Ashmore Reef, Australia

Tag 8

The morning is yours to savour at leisure as Scenic Eclipse II approaches the remote beauty of Ashmore Reef. Indulge in a Senses Spa treatment#, join a revitalising yoga or Pilates session, take a refreshing dip in the Vitality Pool, or simply unwind on board.

Ashmore Reef, one of Australia’s most remote and pristine marine parks, is a protected haven of three tropical islands encircled by vibrant coral, spanning 583 square kilometres. Recognised as an Important Bird Area (IBA), this carefully preserved sanctuary offers a rare opportunity to witness untouched natural beauty from your vantage point at sea.

As your truly all-inclusive ultra-luxury Scenic Discovery Yacht cruises gracefully around the reef, have your camera ready to capture its extraordinary landscapes. Join the expert Discovery Team on the open decks for an engaging birdwatching experience, where you’ll gain insight into the diverse seabirds and marine life that thrive in this secluded ecosystem, all while immersed in the serenity of your surroundings.

In the evening, settle in at one of the eight bars and lounges to enjoy a beverage of your choice. Indulge in over 100 whiskies at the Scenic Lounge Bar or perhaps book a wine tasting session to pair your day with the right drop.

Our visit to Ashmore Reef is required to meet Australian Government regulations. Exploration of the reef is subject to weather and sea conditions due to its exposed offshore location.

Tag 9

Vansittart Bay, Australia

Vansittart Bay, a sheltered inlet along the Kimberley coast, is known for its quiet beaches, rust-red headlands and deep cultural significance for Traditional Owners. Here, traces of more recent history appear alongside ancient stories, including the remarkably well-preserved skeleton of a World War II Douglas C-53 aircraft resting in the landscape.

Scenic Discovery:
A guided visit ashore may begin with a short Zodiac transfer to a secluded sandy beach, where the expert Discovery Team can introduce the bay's geology, history and cultural context as you explore this remote corner of the Kimberley at an unhurried pace.

Tag 10

King George River, Australia

The King George River carves its way through the remote Kimberley region of Western Australia, culminating in King George Falls, a dramatic twin cascade dropping more than 80 metres over sheer sandstone cliffs. Accessible only by water or air, this immense gorge system reveals rust-red walls, tidal reaches and pockets of mangrove forest, with Brahminy kites, egrets and kingfishers often seen above the river's tranquil surface. Your Scenic Discovery Yacht is purpose-built to navigate such secluded waterways with ease and comfort.

Scenic Discovery:
A Zodiac cruise may take you deeper into the gorge for a striking perspective on the falls, gliding beneath towering rock faces and along mangrove-lined banks, where there may be opportunities to observe sunning crocodiles and an array of birdlife, including ospreys, falcons, egrets and kingfishers. Weather and tides permitting, the Discovery Team may be able to approach close enough for you to feel the cooling spray from the falling water.
