Mo., 29. September
Ankunft 00:00

Tag 1

It doesn't get much sweeter than arriving on the sun-soaked shores of the Sugar City. Fiji's second-biggest settlement opens up a world of blissful beaches and turquoise seascapes while its dense jungle lures the adventurous deep into its embrace. Experience rich Fijian life and see dramatic displays like warrior dances and remarkable local practices like firewalks which kick up burning embers into the night's sky. Legend says the city took its name after two chiefs faced each other in a duel. A spear pierced one of the chiefs leading to the shout of 'lau-toka!' or 'spear hit!' Sugar is Lautoka's main trade but its botanical gardens are a sweet insight into the tropical plant life that thrives here - from pearl white lilies to tall fragrant orchids. Explore temples charming cafes and mills - or barter for some of the juiciest mangoes you'll ever taste at the city's lively market. You'll only be able to resist the beaches for so long and it doesn't get much more stunning than the Blue Lagoon - a heavenly blend of woven together turquoise shades. Remote wild and unspoiled these are some of the best tropical beaches in the world. There's more rejuvenating relaxation at the mineral-rich mud pools and spas fuelled by the volcanic activity below. Savala Island is a teardrop of sand offshore and another beautiful place to wander with the soft powder between your toes - along sandy spits that peter out into the water. Or swim and snorkel among its envied reefs thronging with fish life.

Leleuvia Island
Di., 30. September
Ankunft 07:30

Tag 2

Leleuvia is a small low-lying island southeast of Ovalau with a length of barely 500 meters. Situated between the chiefly island of Bau, Moturiki and Ovalau, almost equidistant from Ovalau and the Central Eastern coast of Viti Levu, this lush, green island hosts a small resort. An easily accessible reef with many colorful reef fish 10 meters off of Leleuvia's western beach invites to be explored. Resident sea kraits are often seen resting ashore north of the small pier. Despite its small size and the resort on its southern side, the island still has quite an extensive forest of tamanu (Alexandrian laurel), lantern trees, fish-poison trees and beach gardenia. There are also local clusters of beach hibiscus, beach heliotrope and Pacific rosewood where Sacred Kingfishers, Orange-breasted Honeyeaters, and Pacific Swallows have been recorded.

Fulanga
Mi., 1. Oktober
Ankunft 08:00

Tag 3

As part of the Southern Lau Group, Fulanga is one of Fiji's easternmost islands. Fulanga has a large central lagoon with a 50-meter wide pass to the ocean on its northeastern side. The crescent-shaped raised limestone island is famous for its numerous islands, mushroom-shaped islets and many sandy beaches in the calm lagoon. Some 400 residents live in three small villages. The two villages of Muana-i-rai and Muana-i-cake are quite close together on the southern exterior side with a very narrow passage allowing access to the ocean, while Naividamu, the third village, is on the interior, i.e. lagoon side. Muana-i-cake is the main village and hosts the kindergarten and primary school, a post office and first aid station. Old-style houses made of corrugated iron are predominant with limited solar power for the odd refrigerator and television set. Although many islanders have left Fulanga to look for work in Suva, traditional crafts are still practiced by men and women. The weavers and carvers producing pandanus mats and wooden bowls for kava ceremonies are not only valued on Fulanga. Their products can leave on the monthly supply vessel and is highly sought after in Suva.

Date Line gain a day
So., 5. Oktober
Ankunft 00:00

Tag 8

Crossing the date line (theoretically the 180-degree line of longitude) from the Eastern to the Western Hemisphere seafaring guests will find themselves in the unusual situation of actually gaining a day and prolonging their holiday – at no extra cost! By crossing the (fictitious) line that dissects the planet exactly in half from Greenwich, you travel over time zones and find yourself with an extra day on board. The phenomenon was used by Jules Verne in his novel Around the World in 80 Days when his hero Phileas Fogg finds out he had returned home a full day earlier than calculated having always travelled towards the east. As some countries have decided to change to different time zones than allotted based on longitude, this phenomenon is not strictly linked to the 180-degree line of longitude any longer.

Aitutaki
Mo., 6. Oktober
Ankunft 07:00

Tag 9

When Lonely Planet co-founder describes somewhere as “the world’s most beautiful island” you can be sure that you are in for a treat. Incredible Aitutaki, inspiring Aitutaki, unbelievable, idyllic and unimaginable, there are simply not enough superlatives to describe quite how amazing Aitutaki is. Brought to light in 1779 by Captain Bligh, the Mutiny on the Bounty meant that Aitutaki has something of a bloodthirsty history. While Europeans missionaries eventually settled on the island in the 19th century (evidenced by the white, coral-encrusted walls of the many churches) the island’s Polynesian history dates to around 900AD. Traditional songs and dances from this period still exist (although Christian hymns, known as “imene metua” are also popular), and are performed by islanders with gusto and much pride. The island is part of the Cook Islands, one of the most secluded and romantic archipelagos in the world. With its powder white sand, warm turquoise waters and sense of casual luxury, it is easy to see why the island has earned itself the moniker of honeymooner’s island. However, there is much more to Aitutaki than just fun in the sun. With a reef that completely encompasses a large turquoise lagoon, Aitutaki is considered one of the most spectacular diving and snorkelling destinations in the world. Added to the tropical excitement is that when entering the main village via Zodiac along a narrow channel – travellers will be greeted by a traditional and customary warrior challenge.

Palmerston Island
Di., 7. Oktober
Ankunft 07:00

Tag 10

Once ashore the whole community generally turns out to meet visitors as it is a rare occurrence. The island’s highlights include a church the oldest house the cemetery the school the underground gardens and “Duke’s Pool ” inviting for a swim or snorkel. In the lagoon’s waters it is possible to find colorful reef-fish sea cucumbers rays and sea turtles. Overhead there is birdlife including tropicbirds boobies noddies frigatebirds and terns.

Bora Bora (Society Islands)

Do., 9. Oktober

Ankunft 09:30

Tag 12

If you have ever dreamt up your ideal island holiday, we suspect it goes something like this: Soapy blue seas? Check. Sparkling white beaches? Check. Thatched wooden huts, gently sloping palm trees and kaleidoscopic marine life? Check, check and check. And yet, even by ticking every box, first time viewing of Bora Bora still beggars belief. This tropical hideaway less than 12 m2 in the heart of the South Pacific has been topping travel wish lists for years. Long considered the realm of honeymooners – spectacularly romantic sunsets are a speciality – Bora Bora is not just for wandering with your love. If the prismatic shades of blue of the world's most beautiful lagoon do not fill you up, then perhaps underwater scooters and aqua Safaris will charge your batteries. If exploring Bora Bora's lush hinterland is more your glass of tequila sunrise, then trips around the island (often stopping off at the celebrity haunt Bloody Mary Restaurant & Bar) are a must. Bora Bora's peaceful ambience has not always been the case. The island was a US supply base, known as "Operation Bobcat" during WWII. During this time, Bora Bora was home to nine ships, 20,000 tons of equipment and nearly 7,000 men. Eight massive 7-inch naval cannons were installed around the island, all but one of which is still in place. Although little is known of the history of the island, it is known that Bora Bora was called Vava'u in ancient times. This supports belief that the island was colonised by Tongans prior to French annex in 1888.
